THE 2025 BRITTANY McCARTHY MEMORIAL RUN/WALK

BRITTANY'S STORY

On October 3rd 2021, Brittany McCarthy experienced a severe headache and became physically ill. She was rushed to the hospital where doctor's learned that she had experienced a traumatic brain bleed. Brittany went into cardiac arrest, and although doctors were able to bring her back, she was then dependent on a ventilator. Brittany was transferred to another hospital where she was officially diagnosed with a ruptured brain aneurysm that had caused irreversible effects on her body and brain.

On October 6th, 2021 at 8:58am, Brittany lost her life to this ruptured brain aneurysm. Brittany believed in organ donation and wanted to become a Physician Assistant to help save and improve people's lives. Her family was able to honor her wishes as Brittany's organs and eyesight were donated to those in need.

BECOME A SPONSOR

On Saturday, September 13th, 2025, the 4th annual Brittany McCarthy Memorial Run/Walk will take place in Staten Island, New York. We are seeking sponsorships and donations for this event and hope you will be able to contribute.

All proceeds will directly support The Bee Foundation For Brain Aneurysm Prevention which funded the TBF Preventative Research Grant in honor of Brittany in July of 2022. The McCarthy family & friends have raised over \$150,000 for brain aneurysm research and awareness to date. Your support will not only allow us to continue this tradition, but help us to prevent this deadly disease in Brittany's honor.

The Bee Foundation For Brain Aneurysm Prevention

is one of the country's leading organizations dedicated to spreading awareness and funding preventative research. 1 in 50 people in the U.S. suffer from a brain aneurysm. Almost 50% of ruptures end in death. Increased research and funding is now critical.
